

# SpidoLite

Inspired by an expedition of professional mountaineer to Mount Everest, the **SPIDOLITE**, is the lightest watch in **LINDE WERDELIN**'s collection introducing a new skeletonised case in titanium.

While encompassing all the signature details of the **LINDE WERDELIN** watches, the **SPIDOLITE** features hollowed angular polygonal facets throughout its distinctive case.

The titanium case is drilled to leave just the frame, always ensuring maximum durability of the watch making the **SPIDOLITE** the ultimate luxury sports watch.

The SA version of the **SPIDOLITE** is powered by a 1970's automatic movement, modified by respected Danish-born watchmaker and founding member of the AHCI, Svend Andersen. The recent launch of the SpidoLite skeleton watch SA Family has introduced the all black titanium DLC as well as a rose gold versions, both available in 88 pieces.
